### PROFILE

Results-driven **Frontend Engineer** with 4+ years of experience specializing in **React.js, Next.js, and TypeScript**. Adept at driving architectural improvements, introducing modern tools and frameworks, and mentoring team members to achieve exceptional results. Eager to leverage expertise to build impactful products at scale and contribute to the success of a forward-thinking organization.

### PROFESSIONAL EXPERIENCE

- 08/2020 – present **Frontend Tech Lead**  
ForteBank/OneTechnologies
- Successfully **migrated a legacy codebase** to **Next.js**, reducing page load times by **30%** and improving Core Web Vitals scores
  - **Managed a team of 4 engineers**, establishing coding standards, conducting code reviews, and fostering career growth through mentorship
  - Conducted **architecture planning** and selected cutting-edge technologies, enabling a scalable and modular **monorepo** environment
  - Achieved a **20% performance boost** through comprehensive refactoring and optimization
  - Implemented **Strapi CMS integrations**, streamlining content management for multiple applications
  - Led technical interviews to hire top talent for the team
- 03/2023 – 09/2023 **Frontend Engineer**  
Marpla
- Played a key role in **modernizing legacy architecture**, introducing cleaner, maintainable code and reducing technical debt by **50%**
  - Collaborated with backend engineers to deliver **seamless API integrations**, improving end-to-end performance by **15%**
  - Designed and implemented complex **data visualization components** (e.g., tables, graphs) to empower users with actionable insights
  - Delivered a **responsive, user-friendly UI**, achieving a **95% customer satisfaction score** during user testing
  - Contributed to the **interviewing process**, helping identify skilled engineers to expand the team
- 09/2022 – 01/2023 **Freelance Frontend Engineer**  
Self Employed
- Delivered multiple **dynamic web applications** using **React.js** and **TypeScript**, ensuring **type safety** and **scalability**
  - Leveraged **Next.js** for server-side rendering (SSR), significantly improving **SEO rankings** and time-to-first-byte (TTFB).
  - Integrated **Material-UI** to build intuitive, **responsive interfaces** across devices

### EDUCATION

2018 – 2022 **Bachelor of Information Systems**  
Almaty, Kazakhstan Suleyman Demirel University

### SKILLS

- JavaScript (ECMAScript) TypeScript React.js Algorithms and Data Structures
- Next.js Strapi HTML5 and CSS3 Storybook GraphQL and Rest

### LANGUAGES

- Russian — Native Kazakh — Proficient English — B1+
